FILED

I am amending the first 4 pages to my civil action against the defendants as named due to the extensive list of names that cannot be addressed individually as they fall under the authority of courts, state agencies & state government that are the Executive and Administrative Bodies, Executive and Professional Associations, Executive and Supervisory Committees and or Boards, and other ~~Executive and Administrative Bodies, Executive and Professional Associations, Executive and Supervisory Committees and or Boards, and other~~ Agencies.

Under Rule 4 – Summons; part b – on Issuance – every defendant must have a copy of the entire complaint attached to each summons and because effective service is needed in a timely fashion I would humbly ask that “the cost-saving practices” be honored in my case and to allow the new and revised list to suffice in reaching all of those who have been involved in some form or fashion at some time or another.

This list is better suited for this claim; there has been some form of involvement, decisions made, request for assistance ignored, information shared, fraudulent information created, egregious acts of crimes of moral turpitude (concealed/dismissed) – which of course led to crimes committed against me and my children. On page 4 “John Price” should have been John P. Rivers – a court appointed attorney by the Juvenile Court of Glynn County. The motivation of passing my case around to these court appointed attorneys was a tool to “say” that they “gave” me legal representation, however, one of the attorney’s admitted to me that the Juvenile Court Judge for Glynn County would not allow any justice for me or my children to be effectuated under his jurisdiction. I was forced into representing myself continually and then denied the option to represent myself at varying times – whenever it was convenient to the Juvenile Court to do with me and my children as they wished. I would like to re-iterate the fact that my children were told as of March 2010, consistently & YTD that they were never going to be allowed to return into my custody and that whatever it took – my rights would be terminated. This leads me into something that is very important – although there are a myriad of circumstances within this case that are ever so important; December of 2011 – I was told by a Glynn County DFCS worker that my rights were going to be terminated no matter what, although I had completed multiple case plans – “nothing you do will get your kids back – the Department and the courts have made their decisions...” In April of 2012 I was forced to represent myself in an unexpected court hearing – where I was laughed at and mocked – as usual – and I repeatedly asked Judge Rountree – “Judge – why haven’t my children been returned to me...” Technically my children could have been returned in December of 2010 but definitely by April 1, 2011... Judge Rountree ignored me several times over and then finally responded with: “It doesn’t matter who’s right and who’s wrong...” This was his response as to why my children were not returned. My parental rights have already been taken since 2010 – illegally ... The Macon Telegraph has put out a report (May 6, 2013) that 152 deaths were reported in 2012 – all of who had GA DFCS involvement. This leads me to mention a very dear soul – a devout and strong Republican Georgia State Senator by the name of Nancy Schaefer – she had a few other senators that were backing her in new bills that she presented to the state of Georgia and to Congress referencing these very issues. I understand that what I am doing – that is – standing up for my rights, my children’s rights, and against corrupt and seemingly mafia styled organization, on how that may potentially affect me – in the worst of ways. I pray not. What we have suffered is judicial and systematic malice.

I am humbly asking the US District Court of the Southern District – Glynn County – to take into account the conduct of everyone who has been involved and to consider the elements of what crimes “use to be” by way of race, religion, sexual orientation, social class and the like... There has been a wreck less disregard for the truth referencing the abuses that my family and I have suffered. We have suffered oppressive and unreasonable treatment and have been stripped of one of the unalienable rights – to be a family and pursue happiness. There has been a grand scale in a refusal to allow relief and a disregard for the Georgia State Constitutional foundation from its preamble to Article 1 Bill of Rights – Section 1 – paragraph I-VII – IX, XI, XII, XIII, XIV, XVI, XVII, XVIII, XXII, XXIII, XXVIII.

I have remedied all personal deficiencies with regard to my children. I am asking for additional relief (and for my children) to not be harassed by way of arbitrary unfeeling persecution that demands immediate federal court order intervention.

*Scelia Robinson*
